Abdilahi Yusuf

SENIOR SYSTEMS ARCHITECT & FULL-STACK DEVELOPER

Email: a.yusuf@primevision.io Phone: +252 63 4400000 Location: Hargeisa, Somaliland
GitHub: github.com/ayusuf-dev

PROFILE SUMMARY

Performance-driven Enterprise Systems Architect with over 8 years of experience designing high-throughput multi-tenant systems, localized enterprise solutions, and robust APIs. Expert in AI-native engineering workflows and full-stack architecture.

CORE EXPERTISE

- Systems Architecture
- Multi-Tenant SaaS
- AI-Native Coding
- Database Optimization
- GIS Infrastructure Mapping
- Enterprise Integration

TECHNICAL TOOLKIT

Backend / DB

- PHP 8.x
- MySQL / PostgreSQL
- Node.js

Frontend / Design

- JavaScript (ES6+)
- HTML5 / CSS3 Grid
- TailwindCSS

PROFESSIONAL EXPERIENCE

Principal Systems Architect — 2024 - Present

Primevision Systems — Hargeisa

- Engineered an enterprise-grade airport integration hub optimizing live resource allocation metrics.
- Designed and deployed a nationwide multi-tenant geographic information systems (GIS) utility portal tracking large-scale civic works.
- Established rigorous Git workflows and advanced deployment pipelines for a high-performing local engineering squad.

Lead Full-Stack Developer — 2021 - 2024

Bayaan Medical Informatics Solutions

- Architected "Bayaan Dental", a responsive cloud SaaS medical billing and patient telemetry framework.
- Optimized complex relational indices reducing daily analytical computing latency by 42%.
- Integrated responsive minimalist bento-grid executive UI layouts enhancing administrative workflow efficiency.

KEY ENTERPRISE PROJECTS

Macaash POS: Micro-retail accounting framework featuring resilient local-first synchronization modules for volatile network ecosystems.

Jaamici Analytics Hub: Educational performance tracking system delivering high-fidelity historical data modeling directly to executive boards.

EDUCATION & CREDENTIALS

BSc in Computer Science & Engineering
Somaliland University of Technology | Graduated with Distinction
